

STORMXTREME

- Premium liquid anti-icing & deicing system
- Length: **10' to 16'**
- Industry-leading liquid capacity: up to **1,728** gallons
- Granular capacity: up to **8.3** cu. yd. struck
- Stainless steel construction w/ poly tanks
- One, two or three lane applications
- Options: hydraulics enclosure, ladder and more

FIRST RESPONSE™

- Premium liquid anti-icing & deicing system
- Length: **9' to 15'**
- Granular capacity: up to **9** cu. yd. struck
- Liquid capacity: up to **1,500** gallons
- Stainless steel construction
- One, two or three lane applications
- Options: chassis mount, heavy-duty top grate screens, inverted vee and hold-down kit

TASK FORCE™

- Liquid anti-icing & deicing system
- Length: **10' to 16'**
- Granular capacity: up to **15** cu. yd. struck
- Liquid capacity: up to **800** gallons
- Construction: mild steel or stainless steel
- One, two or three lane applications
- Options: self-storage stand, top grate screens, inverted vee, hold-down kit, rear bumper, etc.

LAS™

- Liquid application system
- 2 drive options: Hydraulic or electric
- Tank capacities: up to **2,000** gal.
- Fits into dump body using front and side wheel guides
- Frame: mild steel or stainless steel
- One, two or three lane applications
- Options: self-loading leg kits, chassis mounts, hose reels, surge busters, etc.

PWS™

- Pre-wet system
- Electric & hydraulic systems
- Reduces scatter
- For quicker formation of brine solution
- Brine forms and melts ice at lower temps
- Reduces salt spread rates
- In-cab controls

DIRECTCAST™

- On-the-go directional control
- Complete in-cab control
- Upgrade from a standard spreader disk-fits most Henderson spreaders
- Precise control of output, coverage pattern and direction up to **3** lanes
- Environmentally friendly with much tighter control of salt use

BrineXtreme INFINITY™

With Auto-Clean Technology™

- Continuous, high-efficiency automatic production with continuous automatic cleanout
- Choose **Pro** or **Ultimate** controls (below)
- **100%** automated self-cleaning
- **5** cu. yd. hopper
- Mobilized/trailer version available

BrineXtreme ADVANTAGE™

- High-efficiency, high-performance brine maker
- Choose **Pro** or **Ultimate** controls (below)
- Sloped floor & unobstructed access to clean out door
- Easy manual clean out
- **4.67** cu. yd. hopper

ULTIMATE CONTROLS

- **100%** continuous self-cleaning & production with BrineXtreme® Infinity™ - up to **7,500** GPH
- **100%** automation & repeatability
- Makes brine & blends with up to **4** additives and **3** micro ingredients
- Handles all salt - treated or not
- **Variable fill rates: 20-400** GPM
- Fill up to **3** trucks simultaneously

PRO CONTROLS

- Up to **6,000** GPH
- **100%** automation & repeatability
- Plug and play installation
- Handles all salt - treated or not
- Available with integrated or detached controls with Advantage
- Add **Truck Fill Station** to blend up to **3** products

BrineXtreme FLEX™

TRUCK FILL STATION

- Truck fill and/or blending system
- Blend up to **4** products
- Storage tank agitation
- Secure data logging
- Remote access
- Up to **100** unique users
- **Variable flow rates of 20 to 200** GPM

We offer a wide array of products and options not shown here. For more information, photos and videos, visit us online or call TODAY!

TOTAL SNOW & ICE CONTROL SOLUTIONS

The Dependable Ones™

MUNICIPAL SNOW & ICE CONTROL SOLUTIONS

Henderson Products, Inc. is a custom manufacturer of brine systems and heavy-duty work truck equipment. Our products are used by an array of customers: D.O.T.s, Cities, Counties, Universities, General Contractors, Landscape Contractors and many more. We have the ability to meet nearly any customer spec or requirement.

MARK™ III

- Rugged unibody-style dump body
- Body lengths: **8' to 11'**
- Material capacity: up to **5.8** cu. yd. struck
- Construction: mild steel or stainless steel
- Many options: head sheets, fold-down side walls, tailgates, sloped sides, etc.

MARK™ IV

- The contractor's choice
- Rugged unibody-style dump body
- Body lengths: **12', 14' or 16'**
- Material capacity: up to **6.6** cu. yd. struck
- Construction: mild steel or stainless steel
- Many options: head sheets, split fold-down side walls, tailgates, sloped sides, and more

MARK™ E

TRADITIONAL DUMP BODY

- The world's most customizable dump body
- Body lengths: **10' to 20'** for single or tandem axle chassis
- Material capacity: up to **23.9** cu. yd. struck
- Mild steel, stainless steel or AR 400
- Low center of gravity
- Many options: head sheets, tailgates, etc.

MARK™ 18

RADIUS DUMP BODY

- The world's most customizable dump body
- Body lengths: **10' to 20'**
- Material capacity: up to **14** cu. yd. struck
- Construction: mild steel, stainless steel, or AR 400
- Low center of gravity
- Many options: head sheets, side walls, tailgates, hoists, liquid tanks, etc.

MAGNUM™

- An elliptical demolition body for serious jobs
- Body lengths: **12' to 20'**
- Material capacity: up to **22** cu. yd. struck
- Self-cleaning design
- Low center of gravity

MUNIBODY® 35°

- Anti-ice/slurry/pre-wet/material hauling
- Body lengths: **10' to 17'**
- Material capacity: up to **14.2** cu.yd. struck
- Liquid capacity: up to **460** gallons
- Self-cleaning design
- Handles sticky materials such as asphalt

MUNIBODY® 22°

- Anti-ice/slurry/pre-wet/material hauling
- Body lengths: **10' to 17'**
- Material capacity: up to **15.7** cu.yd. struck
- Liquid capacity: up to **300** gallons
- Self-cleaning design
- Lower center of gravity

MUNIBODY® FF

- Anti-ice/slurry/pre-wet/material hauling
- Body lengths: **10' to 16'**
- Material capacity: up to **22.6** cu.yd. struck
- Liquid capacity: up to **900** gallons*
- Lowest center of gravity

*With optional Hi-Tech Wedge Tanks

BLACKBELT® MAXX

- Anti-ice/slurry/pre-wet/material hauling
- Body lengths: **11' to 17'**
- Material capacity: up to **13.25** cu.yd. struck
- Liquid capacity: up to **660** gallons
- **54"** wide PURE belt - no chain maintenance
- Self-cleaning design - steep **71°** sloped sides
- Lower center of gravity
- Unloads **FASTER** than a dump body

FSH™/WSH™

- Heavy-duty sand and salt spreader
- Body lengths: **8' to 16'**
- Material capacity: up to **15** cu. yd. struck
- Construction: mild steel or stainless steel
- Conveyor options: chain, belt-over-chain, single or dual augers
- Options: pre-wetting, top grate screens, electric motor, cab shield, bumpers, stands, etc.

BCS BODY CONV. SPREADER

- Turns any dump body into a spreader!
- Conveyor only or as a complete system with wedge tanks, frame, dual augers, all plumbing, end gate and spinner
- Available in **10' to 15'** lengths
- **520** gallon capacity (10' to 12.5' bodies)
- **900** gallon capacity (13' to 15' bodies)
- **1 to 3** lane spray boom capability

PLOWS

- Expressway Plow
- One-way Plow
- RSP Plow - reversible snow plow
- RSP Flex Plow - reversible flex snow plow
- MSP Plow - mid-size snow plow
- MTP Plow - medium-duty trip edge plow
- MTP Flex Plow - medium-duty flex plow
- Ralley Plow - plow built for urban alleys

HITCHES

90+ plow/push frame/hitch combinations! Choose from our Pin Hitch, Quick Hitch, Low Profile Hitches, Manual Tilt, Power Tilt, Quick Link, Oscillating Loop, Pin & Loop, Husting Hitch, Parallelogram Hitch and many more.

Standard, Tubular & Outboard Cylinders Push Frames

WINGS

- HWS Wing - Henderson Wing System
- Extended Mid-mount Wing
- SD Wing - *severe-duty leveling wing*
- SDH Wing - *severe-duty hydraulic leveling wing*

UNDERBODY SCRAPERS

- Fixed Angle Underbody Scraper
- Reversible Underbody Scraper
- Oscillating Underbody Scraper
- Up to **6°** of grade adjustment

TGS

- Dump body tailgate spreader
- **6" or 9"** auger
- Construction: mild steel or stainless steel
- Does not interfere with normal hauling or dumping operations
- Optional: slurry generation, pre-wet kit, shoulderable chute, stabilizer bar kit, ground speed control, electric motor and more

RTS

- Dump body tailgate spreader
- **6"** auger with agitator shaft
- Construction: mild steel or stainless steel
- Optional: adjustable baffle, dual flow control, electric motor
